- In rural Uttar Pradesh over sixty percent of households are without power. Sitapur district is one such place with no power. A small social enterprise called Mera Gao Power (MGP) is trying to change things. They are putting two solar panels at a time. In just over a year, MGP has connected more than 3,500 customers to solar power mini-grids at a village level.
- 1. What is the problem of most of the villages of Uttarpradesh?
- 2. Describe the process of electrification by MGP in Sitapur.
- I have supportive parents who understood that my interest was the environment. They have never stopped me from doing what I want. On my part, I also made sure that I did not fail my parents in any way. I always informed them about everything that I did and took their advice before jumping into actions. I have teachers who taught me how to go about things. They also taught me humility - so that I did not become snobbish or arrogant and start thinking I was a superstar because I was doing all this environment work. They taught me to be simple and keep learning all the time. I am not an activist, I am an environmentalist. I have learnt so much by doing this work,
- 3. How did humility help Arun in his career?
- 4. Who helped Arun in building his career?
- The science of fireworks is technically called, ‘ pyrotechnics’ - from the Greek word , ‘ pyr’ meaning fire and ‘technics’ meaning an art. Pyrotechnics includes not only fireworks but also a whole range of devices that use similar materials and principles, from safety matches that we use every day to solid fuel rocket boosters of the space shuttle. The household match is considered a special pyrotechnic device, as all the pyrotechnic effects- heat, smoke, light, gas and sound-are present in it.
